

## COURSE CERTIFICATE

This is to certify that

**Luca di Stasio**                      **880419-3376**

has participated successfully in the course

**Qualifying course for university teachers, 7,5 credits**

Third-Cycle

After the course the course participant will be able to:

- plan and conduct a basic teaching and from a given teachingsituation independently analyze and reflect over possible improvements, with support from significant aspects on teaching and learning in Higher Education.
- reflect and discuss over teaching in a known field, with support from pedagogical concepts, proven experience and constructive alignment.
- relate to laws, rules and regulation, on a both national and local level in the planning and enactment of education in Higher Education.
- reflect over the impact of different learning environments on learning, and consciously make benefit of both physical and digital environments.
- use LTU-supported systems with relevance for planning, enactment and evaluation of teaching.
- teach based on a scientific foundation and proven experience and within their teaching practice formulate a personal pedagogical philosophy.
